Degree Works Training Manual - Student

DEGREE WORKS OVERVIEW

What is Degree Works?

Degree Works is an online tool designed to assist students and their advisors with tracking degree progress, preparing for registration, and planning for graduation. Degree Works is designed to aid and facilitate academic advising.

How does Degree Works work?

Degree Works reviews courses from a student's transcript and organizes them into blocks of requirements to help students easily identify courses that have been completed and what courses are still needed in order to complete a degree.

What is a degree audit?

A Degree Works degree audit is an easy-to-read view of your requirements for your program of study. The audit is essentially a checklist of requirements for a degree through Western Michigan University. Completed and in-progress classes are used to fill spots within the audit worksheet showing which requirements have been completed, which are in progress and what classes/ requirements remain.

Who can use Degree Works?

All currently enrolled undergraduate students with a catalog year of 2010 or later. If you have a catalog year prior to 2010, you will need to meet with your advisor for assistance determining your degree requirements. Advisors will also have access to those students with a catalog year of 2010 or later.

When should I look at my degree audit?

You can review your degree audit worksheet anytime! However, you should especially review your audit worksheet:

1. Before you meet with your advisor to register for classes for the next semester.
2. After registration to determine that the courses you registered for applied to your audit like you thought they would.
3. After your grades for each semester are posted.
4. Any time you make a change to your schedule or major.
5. When you need to know which classes to take.

Your audit is set up to display the requirements for your program of study in separate blocks for your degree, major and minor. Each block will list the requirements you will need to fulfill to complete that block. Meet with your advisor to discuss your audit and any questions you have about the requirements listed.

Important Note:

Degree Works is designed to aid and facilitate academic advising, but is not intended to replace face-to-face advising sessions. It is neither an official academic transcript nor an official notification of degree requirements and should not be treated as such.

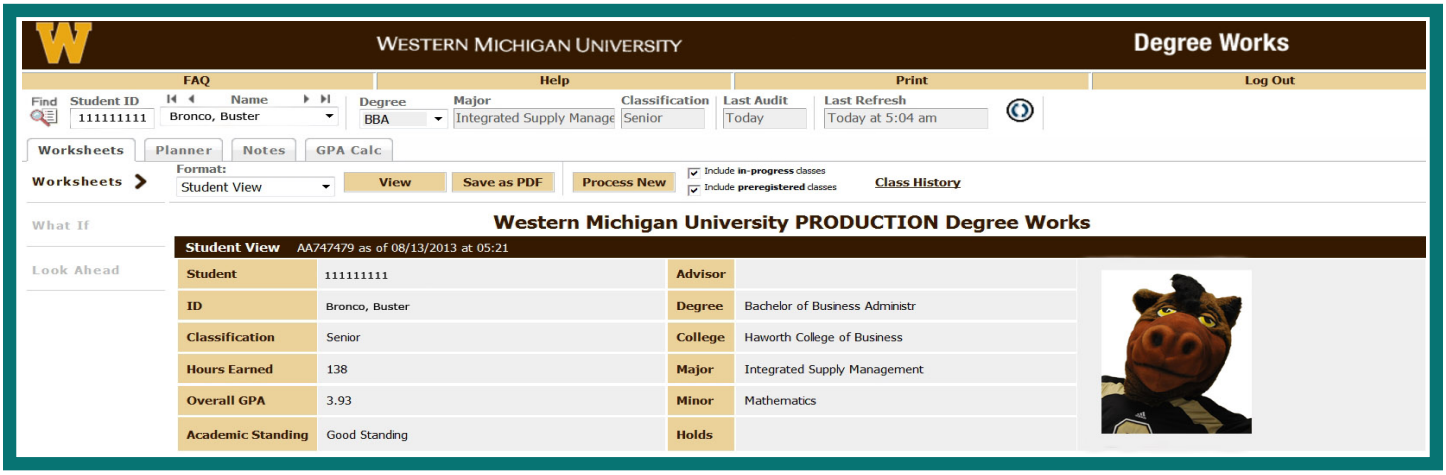
WORKSHEETS: ACADEMIC SUMMARY

The *Student View* is the default worksheet format type. It provides general information about your completed and remaining degree requirements, grouped into blocks.



Student	Displays your full name.	**Advisor**	**IF** you have been assigned a specific advisor, that individual will be listed here. If no advisor is listed, contact the college advising office for assistance.
ID	Displays your Western Identification Number (WIN).	**Degree**	Displays the Degree you will earn upon graduating.
Classification	Displays your classification (Freshman, Sophomore, Junior, Senior).	**College**	Displays the College with whom you are associated.
Hours Earned	Hours earned are the number of credit hours you have completed and can be used to determine your priority registration time.	**Major**	Displays your declared major.
Overall GPA	Displays your overall GPA. Each letter grade carries a point value. Calculate your overall GPA by dividing the total amount of grade points earned by the total amount of credit hours earned.	**Minor**	Displays your declared minor.
Academic Standing	Displays your Academic Standing (Good Standing, Warning, Probation, Dismissal).	**Holds**	Displays any holds that you may have. See GoWMU for detailed hold information. You will want to take care of any holds before attempting to register for classes or requesting a transcript.

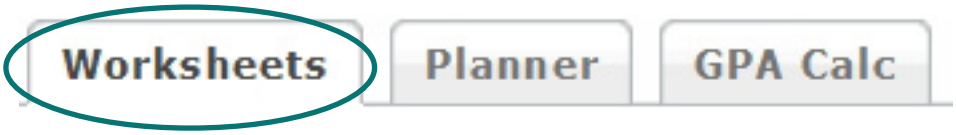
Disclaimer
You are encouraged to use this degree audit report as a guide when planning your progress toward completion of the above requirements. Your academic advisor or the Registrar's Office may be contacted for assistance in interpreting this report. This audit is not your academic transcript and it is not official notification of completion of degree or certificate requirements. Please contact the Registrar's Office regarding this degree audit report, your official degree/certificate completion status, or to obtain a copy of your academic transcript. Students are responsible for complying with all academic policies as published in the Western Michigan University catalogs, including any requirements that may not be included in this Degree Works worksheet report.

It is important to read and understand the disclaimer located at the bottom of the worksheet. Please note that this worksheet audit is not an official transcript or an official notification of completion of degree or certificate requirements. You should refer to your catalog and talk with your advisor to fully interpret the worksheet audit.

WORKSHEETS: BLOCKS



Each section in a Degree Works worksheet audit is called a "Block". Each block header will contain a title and will also display specific course information for that block such as credits applied, classes applied, and GPA for that block.

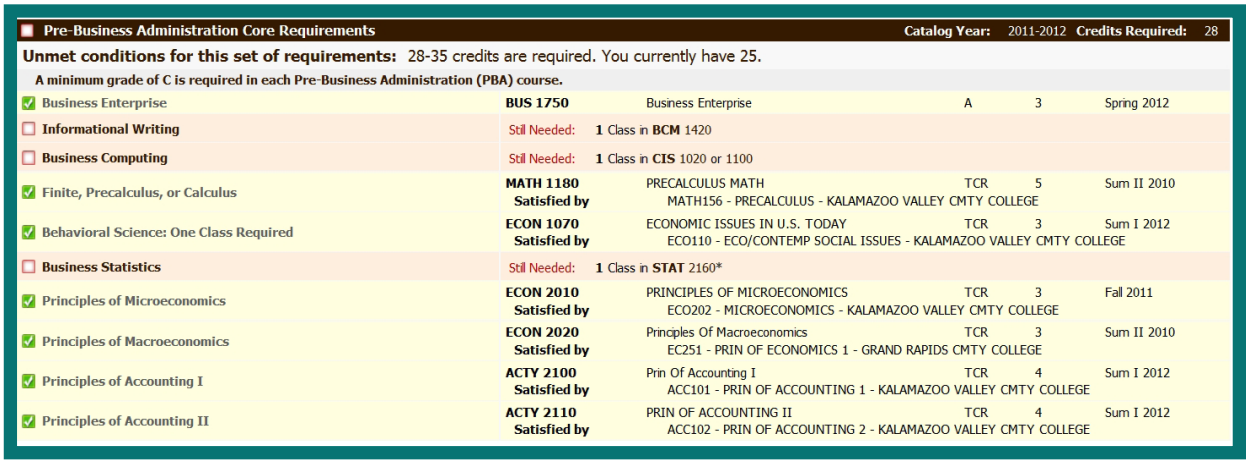
Degree Requirements

This is the main block that houses all of the global rules that apply to all other blocks within the audit. This block will never have the "Complete" symbol until all other blocks have been completed. Within this block you will also find "Unmet Conditions" which are requirements that must be met in order to graduate (residency requirement, total credits needed, etc.). The top-right corner of this block displays the total credits required to graduate and Catalog Year.

Bachelor of Business Administration Degree	Catalog Year: 2011-2012 Credits Required: 122
Unmet conditions for this set of requirements: A minimum of 60 credits from a 4-year institution is required. You have taken 59.	
You meet the minimum GPA requirement.	
Pre-Business Administration Core Classes	Still Needed: See **Pre-Business Administration Core Requirements** section
Business Administration Core Classes	
Major Requirements	Still Needed: See **Degree:Major Requirements-See Below** section
Non-Business Electives	
General Business minor awarded with completion of BBA	
General Education Requirements	
Application to Graduate (Graduation Audit) Not Submitted	Still Needed: You should apply to graduate (Graduation Audit) through your college advisor when you reach 88 credits.

Core Requirements

In this block you will find all the core classes that are required for your degree. For example, if your degree requires a minimum number of credit hours, it will be displayed at the top under "Unmet Conditions". The top-right corner of this block will display the number of required credits and your Catalog Year. Some programs do not require Core Requirements. For these programs refer to the major requirements block (next).



Pre-Business Administration Core Requirements						Catalog Year: 2011-2012 Credits Required: 28
Unmet conditions for this set of requirements: 28-35 credits are required. You currently have 25.

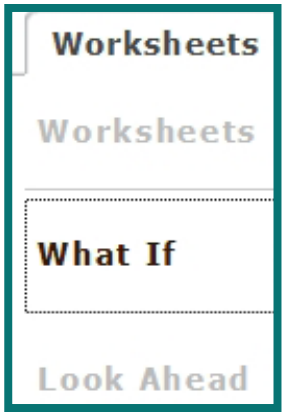
DEGREE WORKS: WHAT IF



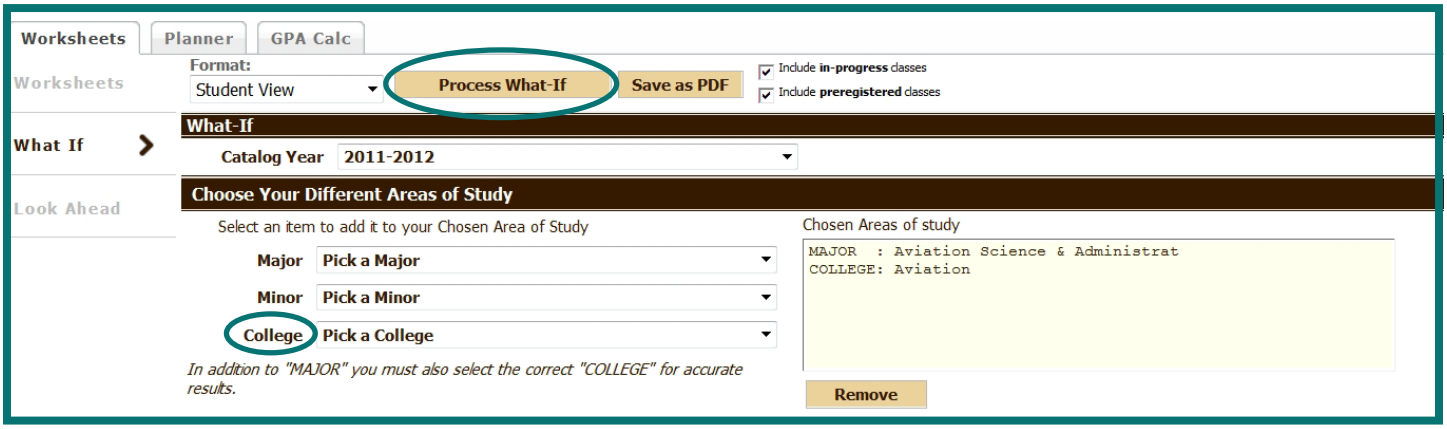
If you are an undeclared student, but want to see just what is required for general education the What-If function will display that information. If you have declared a major, but are considering other majors or minors, the What-If function will display the courses you have taken and where they would fit into a new field of study.

The system starts with a blank slate so for accurate results, you must select:
- **Major**
- **Minor**
- **College**

To access the What If function, click on the "What If" link on the left-side of the audit screen under the "Worksheets" tab.

If you would like to remove any of your choices, select it from the list and click the "Remove" button located below the list box.

After selecting the desired criteria, press the "Process What-If" button. DegreeWorks will then take your entire course history and apply it to an audit with the newly selected changes. Any wrong combination of degree, major and minor will result in an error.



Important Note:

You must select the correct college for accurate results. If you are uncertain which college you should select, contact the department for which you have declared your major.

DEGREE WORKS: LOOK AHEAD

To see an audit showing courses for which you plan to register in future terms, enter the Subject and Number of each anticipated course. Please note: there is no guarantee of class availability for any given term.

DEGREE WORKS: PLANNER

This option allows you and your advisor to create a long-range academic plan. The plan can be saved for future reference and will display a list of recommended courses to take and the sequence in which they are to be taken.

1. Click the Planner tab
2. Two windows display, one with your audit and one with the planner blocks.
3. Scroll through each window individually to see the necessary courses and to enter them into the semester by semester plan.
4. Select a term from the drop-down menu in the right window.
5. Enter the courses for each term.

This can be done either by dragging and dropping the courses from the audit or by manually typing them in. The drag and drop feature will automatically add the credit hours. By typing in the course, you will need to enter the credit hours. Hours will total at the end of each block.

If you are undecided about a particular course, enter a dash, a space, and a brief note (e.g. "- Elective"). The hours will be included in the total and the note will serve as a place holder.

Click the Check All Terms button at the bottom OR click the little box next to the Select Term drop-down that you would like to see in the audit.

Please use Degree Works in coordination with your advisor as the best way to complete your degree requirements in a timely manner. The Registrar's Office will use the degree audit as the initial check for graduation. If you have transfer work or have been granted an exception that is not displaying properly, please visit with your advisor. Exceptions for major requirements must be handled by your college advisor.
